# Every child prepared for life

Can you see the benefit for your organisation of better preparing children and young people for life in the real world, especially now?

More aware of risk, resilient, and confident in making good decisions for safer, healthier, more active and more sustainable lives?

Visit

[www.360skillsforlife.org](http://www.360skillsforlife.org)  
for a 50 second proof of concept video of our virtual reality learning village.

## Your 360 solution

Benefit from joining with partners to build a programme using the 360 **discuss, decide and do** educational ethos in three strands:

 Online	 In-school	 Outdoors
A 360 virtual reality learning village where learners are presented with <b>dilemmas</b> in which they <b>discuss</b> , <b>decide</b> and <b>do</b> , and then <b>deliberate</b> on consequences.	Support for teachers to embed <b>skills for life</b> learning across the curriculum and in every year group, including managed visits to school by relevant professionals.	Support for use of the environment local to the school for extended and practical ' <b>Learning Outside the Classroom</b> ' in the real world.

 **360**  
Skills For Life™  
Online. In school. Outdoors.

# Partner benefits

## Would your organisation like to...

- a. Engage positively, interactively and at scale with target audiences
- b. Communicate key messages and learning, promoting positive behavioural change
- c. Support a skills-based approach where learning is transferable between contexts, maximising impact
- d. Replace labour intensive and limited interventions with a scalable delivery model
- e. Replace interventions from different bodies which can be isolated, labour-intensive and un-coordinated with a common framework, raising delivery standards and consistency
- f. Join a cost-sharing partnership model creating economies of scale
- g. Utilise educational experts to lead your engagement, ensuring provision matches school need and is of a high educational standard
- h. Engage and involve your teams where they are best utilised, in context, and integral to a planned programme, and with full support, ensuring best use of your limited resource
- i. Be part of a positive response to Covid-19, the climate and ecological emergencies, mental wellbeing and other 21st century challenges
- j. Positive, appropriate, value for money PR exposure for doing the right things
- k. Gaining the attention of decision-makers, meeting ambition for Corporate Social Responsibility (CSR) and social impact
- l. Join a growing, flexible and constantly improving partnership

# Mission

***The 360 mission is to provide scenario-based educational experiences that equip learners with the skills, knowledge and confidence to live active, fulfilling and safer lives in stronger and more sustainable communities.***

Through immersive and interactive learning **online, in-school** and **outdoors**, we will build essential **skills for life** including: -

- Assessing and managing risk across different life situations
- Personal confidence and the ability to think for oneself
- Teamwork, collaboration and conflict management skills
- Safer, healthier, happier and more sustainable lifestyles

**We will work in close collaboration with partners from the public, private and third sectors. We believe that partnership is more powerful than competition.**

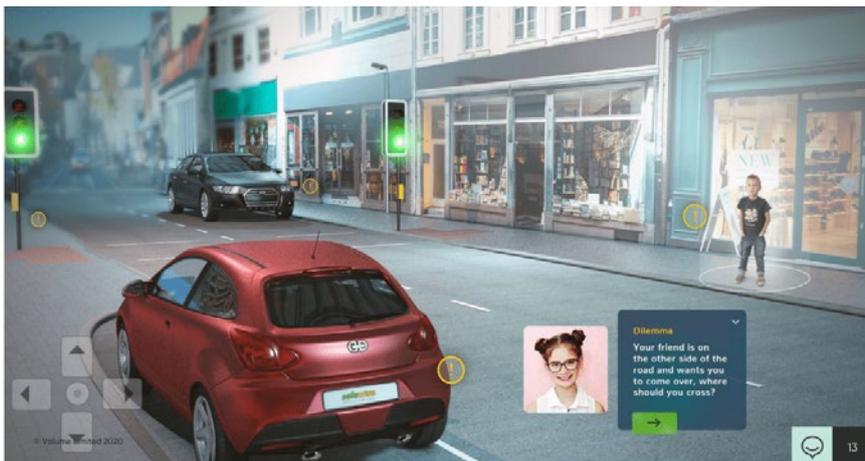

**360**  
**Skills For Life™**

Online. In school. Outdoors.

# Topics

- climate and ecological emergencies
- consequences of crime
- construction site and roadworks safety
- decision-making and risk
- digital wellbeing and security
- drugs and alcohol
- electrical safety
- fire safety
- gas safety
- healthier lifestyle choices
- health pathways and dealing with emergencies
- home safety
- independent travel skills (route planning, pedestrian, cycle, public transport)
- mental wellbeing and personal resilience
- peer pressure
- personal finance
- rail safety
- road safety (pedestrian, bike, in-car)
- rural safety and behaviours
- safeguarding, abuse and exploitation
- violence reduction and conflict resolution
- water safety

The 360 Skills For Life CIC has been set up to build on the physical safety education centre concept but through a format of online, inschool and outdoors.

## Our experience

**360 Skills For Life** has been founded by Rob Hattersley, an experienced classroom teacher, deputy head teacher and curriculum development consultant. He was the educational lead and then manager for West Midlands Fire Service in setting up a new-build safety centre 'Safeside' from 2008-2014. Since then, he has led regional development for the Skills Builder Partnership, linking business and schools, and more recently was CEO of the Dorset and Wiltshire-based SafeWise charity. SafeWise ran safety centres of full-size street layouts teaching visitors a wide range of skills for life in realistic scenarios.

SafeWise was popular at a local level. Through virtual reality, and support for in-school and outdoor learning **360 Skills For Life CIC** can scale up in several ways; reaching schools where they are instead of expecting them to arrange to visit, providing content across the whole curriculum and all age groups instead of just once in a child's school career, and reaching the majority of UK regions which do not have a physical safety centre.

# Timescales

June 2021	Sept 2021 – Jul 2022	Sept 2022
<b>Testing of Phase 1</b> virtual reality and in-school resources (safeguarding theme) for transition between KS2 primary and KS3 secondary plus potential additional safety elements e.g. gas, electrical and water safety	<b>i. Pilot of Phase 1</b> with full academic evaluation <b>ii. Development of Phase 2</b> (active/safer travel) <b>iii. Phase 3</b> (climate and ecological emergencies)	<b>i. Begin national roll out of Phase 1</b> online and in-school teacher-led provision <b>ii. Full pilot</b> of in-school and outdoor programme with partners <b>iii. Full pilot of Phases 2 and 3</b>

**360 Skills for Life is working towards the day when every child is prepared for life, not just for exams.**

## Get in touch

**We'd love to discuss further with you how the 360 schools project might support your organisational objectives and answer any questions you may have. Get in touch for an informal chat online to find out more:**
